CAD Standards Management:
Sharing, Managing, and Enforcing

Mark Perrott

Autodesk Consulting

Class summary

A discussion on how we are, how we could be, and how we should be managing block libraries, line styles, and templates both internally and between organizations.

Key learning objectives

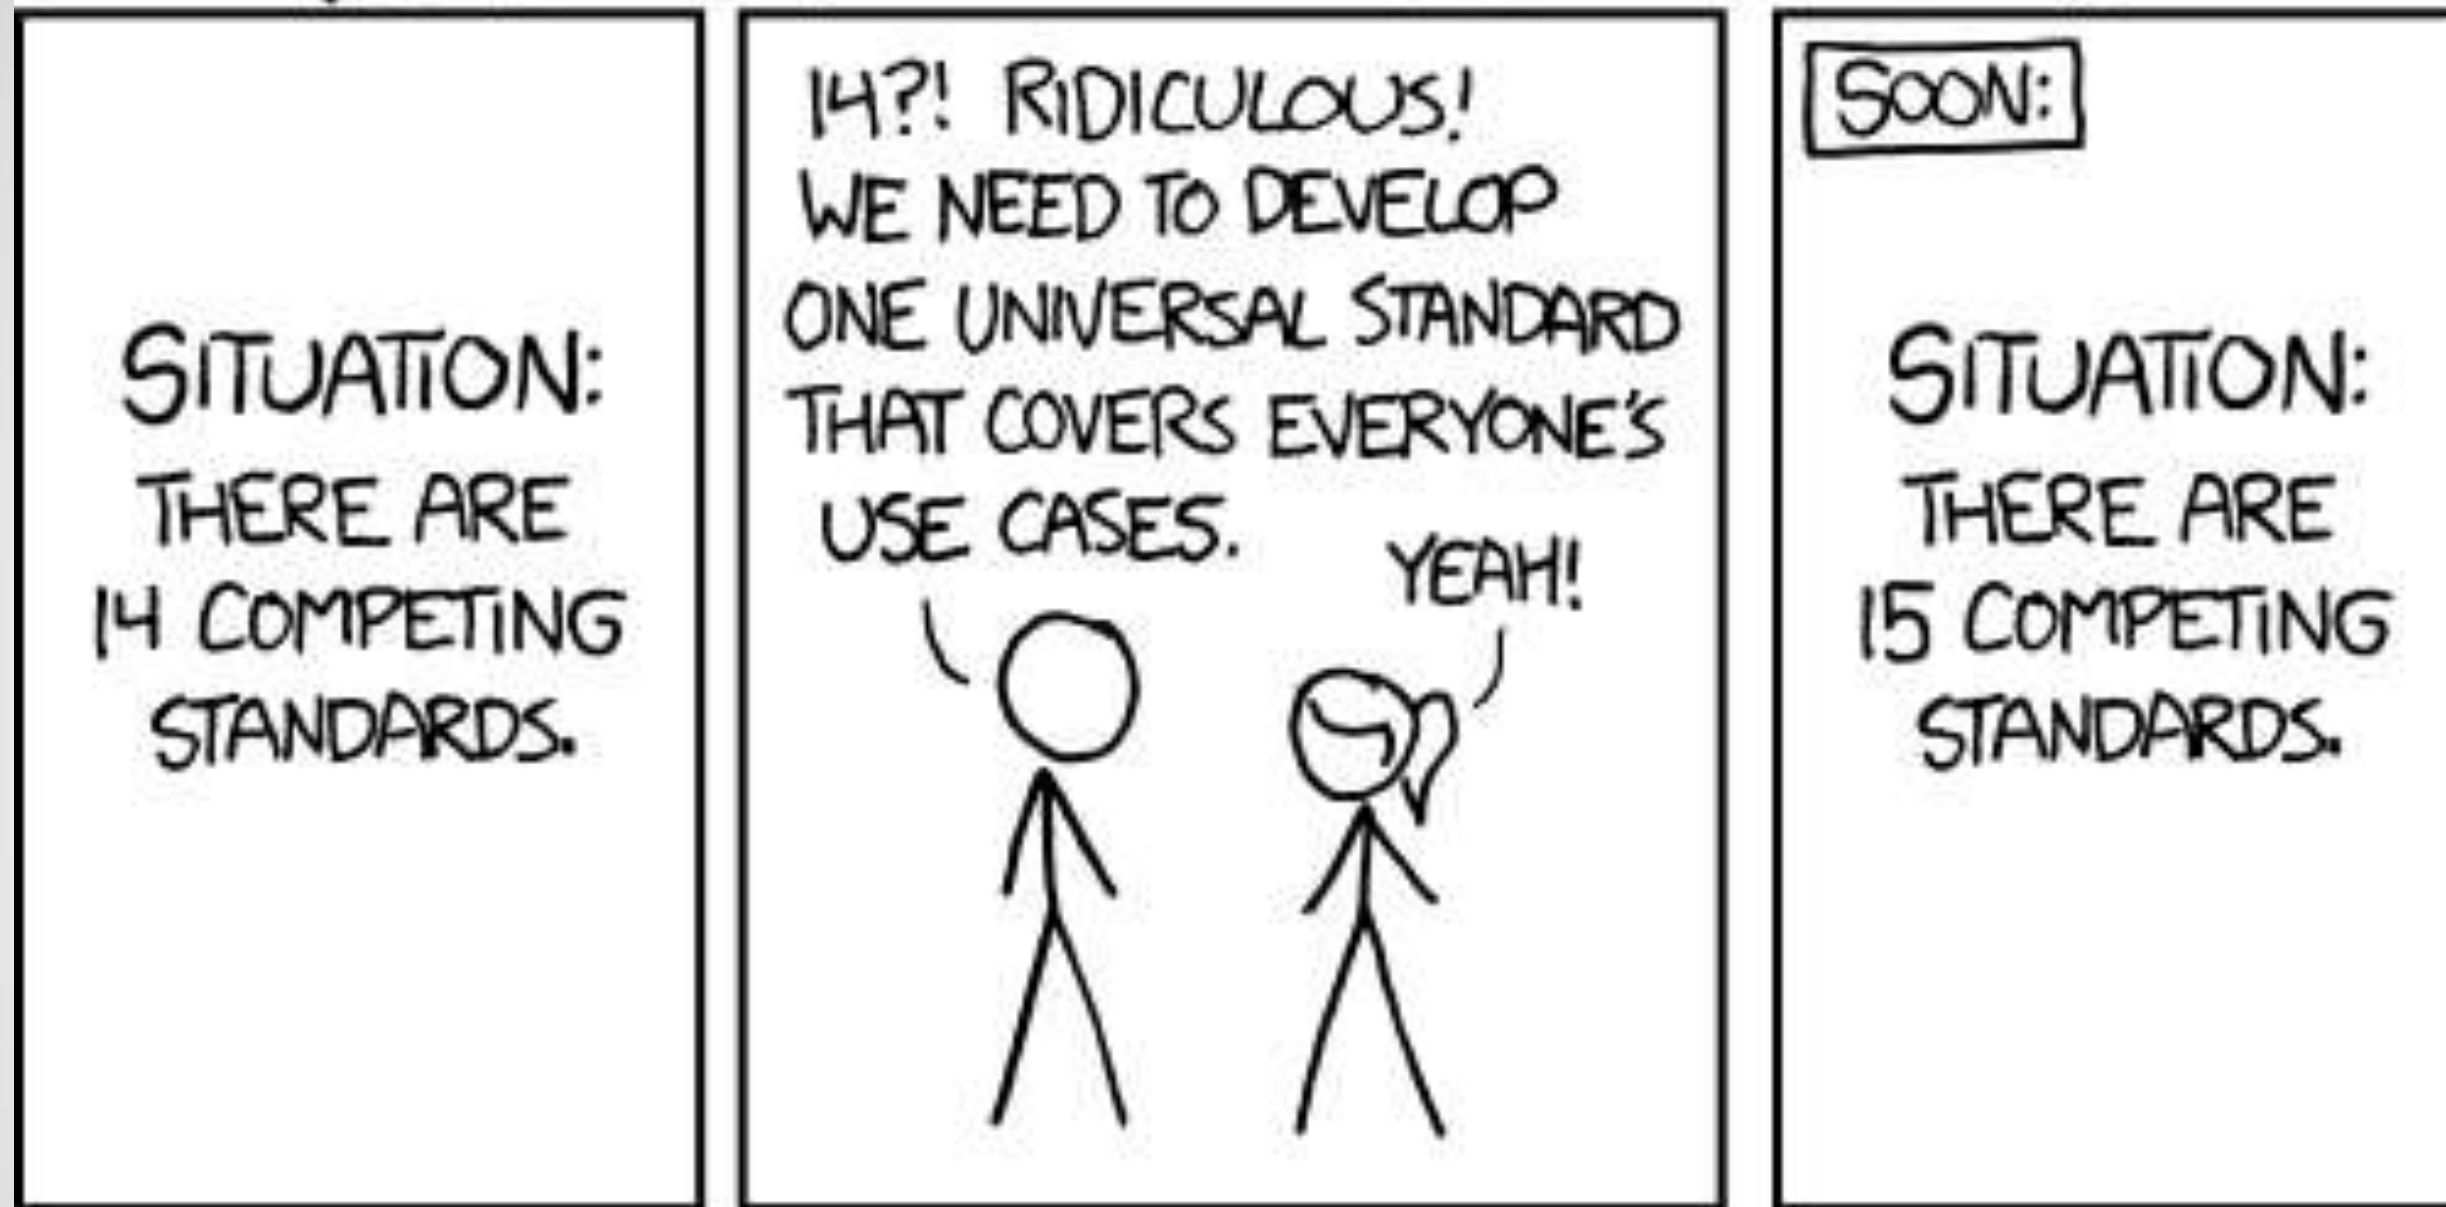

At the end of this roundtable, you will be able to:

- Discuss best practices for standards management
- Talk about what is working and what isn't for your organization
- Explore currently available options
- Understand what may be achieved in a custom solution
