

# Autodesk® Showcase® 101: An Introduction

## AB1929-L

Marion Landry  
Technical Marketing Manager  
Autodesk

# Class summary

In this hands-on lab, you experience the step-by-step workflow between Autodesk® Revit® and Autodesk Showcase software. Learn how to quickly and easily transform digital prototypes or architectural designs into compelling imagery, movies, and real-time presentations. This class is an introduction to Autodesk Showcase. If you have never used this software before or have used it only a few times, this class is for you. We also discuss Importing models from other sources such as Autodesk® Inventor®, Autodesk® AutoCAD® and Autodesk® 3ds Max® Design software.

# Key learning objectives

At the end of this class, you will be able to:

- Use the basic tools in Autodesk Showcase software
- Describe the workflow between Autodesk Showcase and Autodesk Revit
- Change Materials, create Alternatives, Shots and storyboard slides in Autodesk Showcase
- Publish images, videos and web presentations with Autodesk Showcase and Autodesk® 360 cloud-based products and services
