

# A360 Team & Collaboration for Revit: 2 Years Later & Still Going Strong!

Marin Pastar

Principal Architect & Director of Innovation

[bates](#)

Ian McGaw

Chief Technology Officer

[batesENG](#)

# Class summary

A case study on technology hurdles & solutions while using A360 Collaboration for Revit and A360 Team for all design disciplines on a large scale project.

# Key learning objectives

At the end of this class, you will have a greater understanding about:

- A360 Collaboration for Revit Best Practices, Workflows, Limitations and actual Solutions
- Revit Model Behavior and Management on the C4R Cloud, with 10+ Inter-Linked Models
- Project Collaboration on A360 Team Hub with 50+ Contributors including Designers, Owners and Contractors
- Workflow that bypasses common problems in leveraging BIM for the entire lifecycle of Facility Design, Construction, O&M
