

## Autodesk® Factory Design Suite: The Power is in the Workflow

Deepak Maini – Cadgroup Australia

### MA1370

At the end of this class, you will be able to:

- Understand and use 1:1 Sync between AutoCAD and Autodesk Inventor
- Better understand Autodesk Revit Interoperability with Autodesk Inventor
- Use Autodesk 360 Cloud Services to Exchange data
- Use Autodesk Navisworks to create collaborated factory designs with factory buildings and machine layouts

### About the Speaker

*Deepak Maini (Sydney, Australia) is a qualified Mechanical Engineer with more than 15 years of experience in working with various CAD software. He has also been teaching various CAD software for more than 14 years. Deepak has written around 26 textbooks on various CAD packages and his latest textbook on Autodesk Navisworks 2014 was released in April 2013. More details about him can be found on his website <http://www.deepakmaini.com>*

*Deepak is a lead presenter at various events showcasing the latest Autodesk technology all around Australia and has also presented at Autodesk University in Las Vegas in the past. He regularly contributes to the Cadgroup's Blogs <http://www.cadgroup.com.au/community/blog/cadblog>.*

*Deepak is currently working as the Head of Technical, Manufacturing Solutions with Cadgroup Australia, the first Platinum Autodesk Partner in the southern hemisphere.*
