Have an Enterprise Business Agreement? Learn How to Capitalize On Your AutoCAD Cloud Usage

Maayan Gottlieb
Principal Product Manager, AutoCAD

Eduard Mitelman
Director, AutoCAD
How much $ was spent on rework in 2018?
$538 Billion has been spent on Rework in 2018
On a project scheduled to last 2 years, on average, 72 days will be added due to rework.
Poor communication + Poor access to project data = $31.3 billion of rework costs in 2018 in the US market
Did you know

Construction professionals are spending 14+ hours each week on suboptimal activities:

- **5.5 HOURS**
  Looking for project data

- **4.7 HOURS**
  Resolving conflicts

- **3.9 HOURS**
  Unnecessary mistakes & delays

This means that only 3 days per week are effectively being used for productive tasks!

There is a problem with the heating...
I wish I could write it down on the drawing…
Oh @$&#!
Can’t believe I worked on an old version for 2 hours now…
Multi-Platform AutoCAD
AutoCAD on Desktop

Powerhouse of fidelity, functionality and precision
AutoCAD on Web

- Path to every dwg
- Collaborative workflows
AutoCAD on Mobile

- Access to drawings away from your desk
- Make the most of your time in the field & in meetings
- Bring field knowledge into the drawing and share it
Demo
Safe Harbor

Each of the presentations today will contain forward-looking statements about our strategies, products, future results, performance or achievements, financial, operational and otherwise, including statements about our strategic priorities, business model transition, and guidance for the first fiscal quarter and fiscal year 2020; our long term financial and operational goals; our M&A strategy; our capital allocation initiatives; and our stock repurchase program. These statements reflect management’s current expectations, estimates and assumptions based on the information currently available to us. These forward-looking statements are not guarantees of future performance and involve significant risks, uncertainties and other factors that may cause our actual results, performance or achievements to be materially different from results, performance or achievements expressed or implied by the forward-looking statements contained in these presentations, such as a failure to maintain ARR, ARPS, subscriptions, billings, revenue, deferred revenue, margins and cash flow growth; difficulty in predicting those financial and performance metrics; failure to maintain spend management; failure to successfully integrate acquisitions and manage transitions to new business models and markets, including our efforts to expand in construction and manufacturing, and attract customers to our cloud-based offerings; failure to successfully expand adoption of our products; and negative developments in worldwide economic or political conditions.

A discussion of factors that may affect future results is contained in our most recent Form 10-K and Form 10-Q filings available at www.sec.gov, including descriptions of the risk factors that may impact us and the forward-looking statements made in these presentations. The forward-looking statements made in these presentations are being made as of the time and date of their live presentation. If these presentations are reviewed after the time and date of their live presentation, even if subsequently made available by us, on our website or otherwise, these presentations may not contain current or accurate information. We disclaim any obligation to update or revise any forward-looking statement based on new information, future events or otherwise.

Non-GAAP Financial Measures
These presentations include certain non-GAAP financial measures. Please see the section entitled “Reconciliation of GAAP Financial Measures to non-GAAP Financial Measures” in the Appendices attached to the presentations for an explanation of management’s use of these measures and a reconciliation of the most directly comparable GAAP financial measures.
This is the voice over – to explain what I mean:

Ok, so this is all great and fun but you might ask yourself how do you manage all of these products and workflows to be able to efficiently optimize the tokens usage across your organization and get insights into your company applying the right AutoCAD flavor to the right needs.

We thought about that part too and want to provide you with a preview of what you might expect in the future. The usage data and insights you are used to getting in your account portal about your Autodesk products will also include AutoCAD web and mobile.
